Programm

Dismantling of wind power plants in France and in Germany How to strike a balance between cost and high recycling rates?

Paris, 21 May 2019

French Ministry for the Ecological and Solidary Transition (MTES)
Grande Arche, Parvis de la Défense (Entrance South)
92055 Paris - La Défense Cedex

The seminar will be held entirely in English and will be moderated by Sven Rösner.

FROM 8:30

RECEPTION WITH COFFEE AND CROISSANTS

9:15-9:30

Introduction and presentation of the programme
— Sven Rösner, Director, Franco-German Office for the Energy Transition (OFATE | DFBEW)

9:30-10:30

CURRENT STATUS OF WIND POWER PLANT DISMANTLING IN FRANCE AND GERMANY

9:30-9:50

Wind power plant dismantling and recycling in France: legal framework & current status
— Angélique Lequai, Policy officer, Office for Risk Management of Energy and Chemical Industries, Ministry for an Ecological and Solidary Transition (MTES)

9:50-10:10

Wind power plant dismantling and recycling in Germany: results of a recent study
— Dr. Petra Weißhaupt, Section III 1.6 "Extended Producer Responsibility", German Federal Environmental Agency (UBA)

10:10-10:30

Q&A Session

10:30-11:00

COFFEE BREAK

11:00-12:15

INTEGRATED APPROACHES TO THE MANAGEMENT OF THE PROJECT END-OF-LIFE

11:00-11:20

RecycleWind: strategies for a resilient and self-learning recycling network of rotor blades
— Dr. Frauke Germer, Institute for Environmental and Biological Technology, University of Applied Sciences Bremen

11:20-11:35

Platform for management of plant end-of-life: experiences in France
— Delphine Garnier, Engineering Manager, Association for the Dismantling, Recycling, Reconditioning and Resale of Wind Turbines (AD3R)

11:35-11:50

Life extension of wind power plants with used parts
— Jochem Sauer, Managing Director, Spares in Motion

11:50-12:15

Q&A Session

Gefördert durch:

Bundesministerium
für Wirtschaft
und Energie

aufgrund eines Beschlusses
des Deutschen Bundestages

Gefördert durch:

MINISTÈRE
DE LA TRANSITION
ÉCOLOGIQUE
ET SOLIDAIRE

@DFB_EW @OFA_TE

- 12:15-13:45** **LUNCH**
- 13:45-16:00** **EXCHANGE OF EXPERIENCES, CURRENT SOLUTIONS AND OUTLOOK**
- 13:45-14:00** **Dismantling of foundations and towers – contribution to a sustainable project end-of-life**
— Ralf Voßhenrich, Manager Wind Energy, Hagedorn GmbH
- 14:00-14:15** **First experiences with wind power plant dismantling**
— Maxime Dupuis, Project Director Construction, Kallista Energy
- 14:15-14:30** **Recycling options for glass fibres – the case of a cement plant**
— Mika Lange, Managing Director, neowa GmbH
- 14:30-14:45** **Q&A Session**
- 14:45-15:15** **COFFEE BREAK**
- 15:15-16:00** **Panel: How to strike a balance between cost and high recycling rates?**
— Thibaud Uhl, O&M REX Manager – Knowledge Officer BU France Renewable, ENGIE
— Gwénaëlle Bru, Project Manager, Global Account Development, Veolia
— Sébastien Billeau, Renewable Energy Department, French Environment and Energy Management Agency (ADEME)
- AROUND 16:00** **END OF THE SEMINAR**
