Programme

## Planning and authorisation procedures for offshore wind projects: Recent developments in France and in Germany

Wednesday, 7 October 2020

Online Seminar

The online seminar was held in English and moderated by Sven Rösner.

- 9:00-9:10 Introduction and presentation of the programme  
— Sven Rösner, Director, Franco-German Office for the Energy Transition (OFATE | DFBEW)
- 9:10-9:25 **MARKET OVERVIEW AND CHALLENGES IN MARINE SPATIAL PLANNING**
- 9:10-9:25 Overview of the European offshore wind market: structure, development goals and challenges in marine spatial planning  
— Brent Wanner, Lead Power Sector Modelling, International Energy Agency
- 9:25-10:15 **LEGAL FRAMEWORK FOR PLANNING AND AUTHORISATION PROCEDURES FOR OFFSHORE WIND PROJECTS IN FRANCE AND IN GERMANY**
- 9:25-9:40 Planning and authorisation procedure for offshore wind projects in France  
— Daphné Boret Camguilhem, Deputy Head of Office for Renewable Hydropower and Marine Energy, French Ministry for the Ecological Transition
- 9:40-9:55 Planning and authorisation procedure for offshore wind projects in Germany  
— Nico Nolte, Head of Management of the Sea Department, German Federal Maritime and Hydrographic Agency (BSH)
- 9:55-10:15 Open discussion
- 10:15-10:30 **VIRTUAL COFFEE BREAK**
- 10:30-12:15 **EXCHANGE OF EXPERIENCES ON ENVIRONMENTAL IMPACT AND GRID CONNECTION**
- 10:30-10:45 Environmental considerations in the context of offshore wind projects  
— Thilo Liesenjohann, Group Leader Offshore, BioConsult SH
- 10:45-11:00 Grid connection of offshore wind projects: the EU Horizon 2020 project PROMOTiON  
— Christina Brantl, Group Leader DC Systems, RWTH Aachen
- 11:00-11:10 Questions & answers
- 11:10-11:20 **VIRTUAL COFFEE BREAK**
- 11:20-11:35 **Keynote:** Solving a trilemma – cost, grid integration and environmental impact  
— Vincent Guénard, Offshore Wind Energy Engineer, Renewable Energy Department, French Agency for the Ecological Transition (ADEME)
- 11:35-12:15 Open Discussion
- AROUND 12:15** **END OF THE ONLINE SEMINAR**
